*For Immediate Release*

## **Cablecraft Motion Controls Announces Sub-Brand, Radial Bearing LLC**

**Bolivar, Ohio (September 23, 2025)** – Cablecraft Motion Controls (“Cablecraft”), a Torque Capital Group portfolio company, announced today the launch of Radial Bearing LLC, a new extension of the Cablecraft family.

In February of 2024, Cablecraft acquired Danbury, CT based Radial Bearing Corp., a leading designer and manufacturer of high-performance, critical application Rod Ends and Spherical Bearing products. This transaction expanded Cablecraft’s existing Linkage product offerings designed and manufactured in New Haven, IN.

The Radial Bearing sub-brand reflects the leveraging of the combined capabilities, technologies and expertise to provide a broad portfolio of critical engineered linkage solutions to the aerospace, defense and industrial markets. In addition, by establishing this dedicated identity, Radial Bearing can deliver greater clarity, flexibility, and value to our customers while remaining aligned with the strength and reputation of Cablecraft.

Cablecraft Executive Vice President of Sales & Marketing, Lisa Huntsman, commented, “We’re excited to introduce our new sub-brand, designed to deliver a focused and elevated brand experience for our linkage product portfolio. Backed by the same trusted team, this initiative leverages the recognition, credibility, resources, and industry expertise of Cablecraft. Together, we remain united in our shared purpose: to safely propel the world forward through our leadership in engineered motion controls..”

An updated logo, website and business collateral are part of the new sub-brand. Radial Bearing can be found at [www.radialbearing.com](http://www.radialbearing.com). The website highlights Radial Bearing’s broad market leadership reflecting our brand promise of superior engineering, guaranteed product quality, complete reliability, and excellent service.

### **About Cablecraft**

Cablecraft is a market leader in the design and manufacture of high-performance, mission-critical motion control products with a strong reputation for quality and innovation. With a rich history of delivering cost-efficient and reliable control cables, remote actuation products, rod ends, spherical bearings, linkage assemblies and mechatronic components, customers have relied on superior engineering, guaranteed product quality, complete reliability and excellent customer service for their unique applications. Cablecraft has continued to expand its product line and customer base in the aerospace & defense, engine controls, power sports, light vehicle, heavy truck, marine, construction, and agriculture industries, selling its products to the leading OEMs within their respective industries. We are propelling the world forward, safely and reliably, as a global leader in engineered motion controls.

## About Torque Capital Group

Torque Capital Group is a lower-middle market private equity firm that takes an operational approach to investing in businesses at a critical inflection point. Torque deploys patient capital behind North American based manufacturing, niche / enthusiast branded products, and supply chain service companies, with a particular expertise in transportation markets. Torque serves as a resource to their portfolio company management teams, and offers strategic, operational, and financial resources to accelerate the building of long-term value for all stakeholders.
